Art Unit: 1651

1. Receipt is acknowledged of the preliminary amendment filed March 07, 2002.
2. This application is a 371 of PCT/IN99/00042 filed September 09, 1999.
3. Claims 1-18 are present in the instant application.
4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 6, 7, 11, 17 and 18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention with respect to the following:

Claims 6, 7, 11, 17 and 18 are rejected under first and second paragraph as being enabling to make and use as well as being vague and indefinite in scope with respect to the following:

Claim 6 for the term "harrar".

Claim 7 for the term "kulthi".

Claim 11 for the term "triffla".

Claim 17 for the expression "Latakasturi water".

Claim 18 is broader than the enabling written disclosure due to the expression "substantially as herein described".

Which above terms are not defined in the specification. What is the composition of this product? Is it available to one of ordinary skill in the art? How does one obtain the

product? Is there a brochure as to the contents or the formula?

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 18 (vague and indefinite) for the expression "substantially as herein described".

5. **Claims 1-5, 8-10 and 12-16 are allowed.**

No anticipatory art has been found. The references alone or further in view of each other do not suggest or motivate one of ordinary skilled in the art to make and prepare the compositions. It is also noted that the following terms have been found to support the claimed subject matter.

6. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

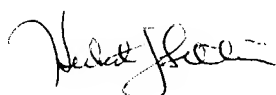

It is noted that there is spelling error on page 5 line 7.

It is also noted that there is an error in the date on page 7 line 7 "05.07.1997".
